MINERÍA CREATIVA[®]

TSF Earthworks Solutions

Design Services, 3D Modeling in Earthworks for
Tailings Storage Facilities and Civil Works in General.

PROYECT AREAS

In these areas, we have the capacity to execute different types of projects. Ranging from design and conceptualization to the evaluation, development, and execution of ideas.

ABOUT US

We are a company that develops solutions.

We adapt to the needs of our customers. We provide the value of differentiated experience in the segment of 3D technical solutions and spatial understanding, minimizing the potential impact on the environment and delivering a social benefit to the communities.

MISSION

To provide technical solutions of exceptional value and spatial understanding, with creative and environmentally friendly ideas.

VISION

To be leaders in sustainable 3D solutions in the mining industry using the existing technologies in the market.

VALORES

- ✓ Innovation
- ✓ Trust
- ✓ Reliable
- ✓ Service excellence
- ✓ Respect

OUR TEAM

ALBERTO MOLINA
Leader Finances

VANESSA GALVEZ
Leader IMS

CLAUDIO QUILODRÁN
Executive Director

SLYN ESPINOZA
Leader GIS

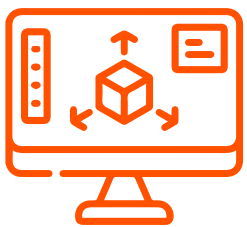

JOSEFINA QUILODRÁN
Leader Marketing

OUR SERVICES

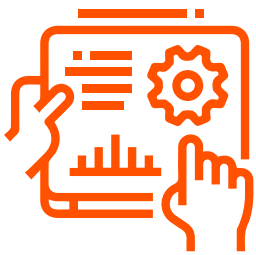

VALUE ENGINEERING

We have a differentiating advantage in the segment of development of technical solutions and spatial understanding through 3D modeling and 4D visualization.

3D MODELING AND 4D VISUALIZATION

- Dam System
- Drainage System
- Surface Water Management System
- Contact Water Management System
- Tailings Transportation and Deposition System
- Water Reclaim System

STRATEGIC REVIEW

- Geometric review of third-party designs.
- Engineering design comparison v/s as-built
- Material progress control
